

Hi everyone,

Please ensure that the Fuzzy Match translations are actually translated.

Activate the warning for unchanged fuzzy matches.

How to activate Warning for Unchanged Fuzzy Matches

With the new Service Pack for Transit NXT (SP10), settings can be adjusted so that the user is warned if a fuzzy match is marked as translated without having been changed.

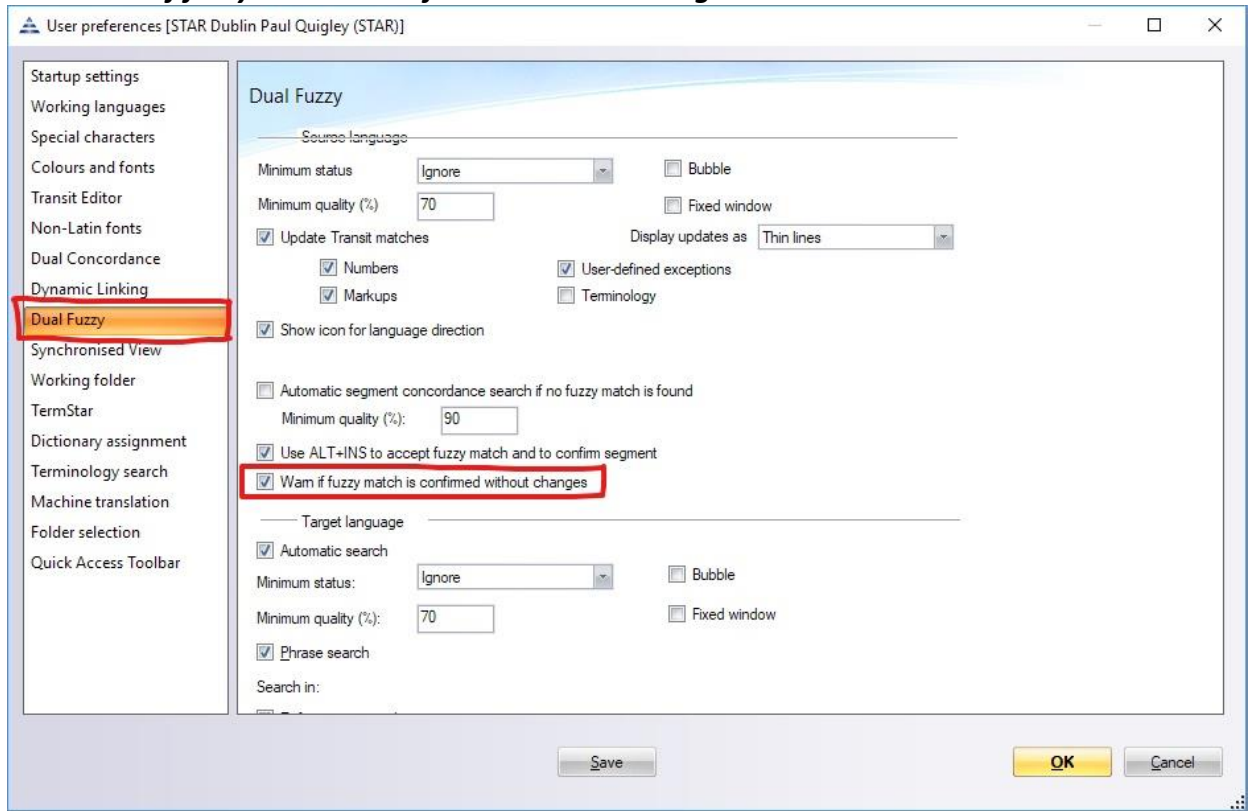

To activate the feature ...

1. Open "***User preferences***"

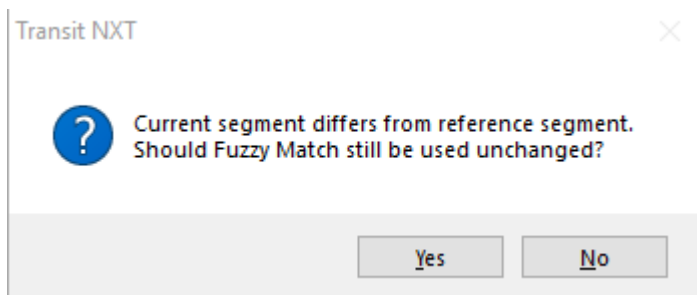

2. Click "**Dual Fuzzy**"
3. Tick "**Warn if fuzzy match is confirmed without changes**"

4. If a fuzzy match is marked as "translated" without having been changed, the following message appears:

Please, refer to resources@ts-star.com if you are unsure on how to activate the warning.
